

# Campbell High School

An ACT Public School  
Principal John Manders  
Every Student, Every Lesson, Every Day

## ICT at Campbell High

Dear Families,

Campbell High School is committed to providing a technology rich environment for our students. To take full advantage of the opportunities digital technologies offer students we need to share some limited personal information with third parties providers. This form allows you to give the relevant permissions and details the nature of the information shared along with its purpose.

The below sites have been identified as being a useful component in the teaching programs in many classes at Campbell High School. Please be aware that these platforms can constitute a major part of the teaching and learning programs including assessment, and that your child's exclusion from using the platforms may restrict their learning opportunities in their classes.

Some of the listed services are used only in specific classes and where students are not enrolled in those classes, information about the student will not be provided to the named third party.

Please indicate your consent or non-consent for each of the services listed by ticking the appropriate option.

Yours Sincerely,

John Manders  
Principal Campbell High School

# Campbell High School Chromebook Acceptance Form

## IMPORTANT NOTE:

If you wish for your child to participate in the Better schools for our kids – technology enabled learning initiative, **you and your child both need to complete and sign Part A and Part B of this form without changing it.** Students may not be able to receive a Chromebook until this completed form is returned indicating parent agreement to opt into the initiative. If you do not wish to participate in the initiative, please complete and sign Part C of this form only. Please return the completed form to your child's school (in hard copy or by emailing a scanned copy of the completed form to [cblh.it@ed.act.edu.au](mailto:cblh.it@ed.act.edu.au)).

## Part A. Parent/guardian agreement to opt in

I agree for my child to receive a Chromebook under the following conditions:

- The Chromebook issued to my child is for educational purposes while they are enrolled at the school.
- The Chromebook remains the property of the Australian Capital Territory (Territory).
- I have read and discussed with my child, the Communities Online: Acceptable use of ICT – Parents and Students Policy and Guidelines and all other policies and documents published on the ACT Education Directorate's Policy webpage.
- While my child is at school, the Territory's filtering software reduces the risk of accidental access to inappropriate online content. The Territory and other people helping or working with the Territory, may monitor use of Chromebooks and may access information added to the Chromebook.
- I am responsible for my child's use of the Chromebook outside regular school hours, including supervision and ensuring healthy, safe and acceptable use.
- The Territory will not monitor my child's use of the Chromebook on my behalf.
- I will immediately notify the school if my child's Chromebook is stolen, lost or damaged and provide any evidence that the Territory asks for, such as a statutory declaration or police report. Stolen, lost or damaged Chromebooks will be remotely disabled by the Territory, so that no one can use them.
- The Territory does not have to repair or replace any Chromebook that is stolen, lost or damaged.
- I will return the Chromebook and any accessories to the school if requested, including for repair and maintenance, or when my child permanently leaves the ACT public school system.
- A breach of this form, or the Acceptable use of ICT Agreement already signed by my child, including by misuse of the Chromebook, could result in removal of access to the Chromebook. Any illegal behaviour will be notified to police.
